### **Import-Export Thailand-France**

We like to make a connection with people who like to work together to make at possible Thai product to sell in France.

The products from Thailand can be Pineapple, Scrimps or Real Leather bags and so on or clothes. Production in Thailand have much lower costs for to make it in Thailand and therefore is it attractive to export to the France. If you like also to start new business or want to be or contactperson in France then you can email to [evert.van.der.weide@hotmail.com](mailto:evert.van.der.weide@hotmail.com) or calling by Skype [evertvanderweide](#) .
